## Get ready for winter with Hoselink

Hoselink has recently launched a number of new products to make gardening a little easier throughout winter.

The range includes Hoselink's Extendable Rake & Sweep-in Leaf Collector that not only makes light work of a tedious job, but is designed with storage in mind. The rake can collapse to just 83 centimetres long x 21 centimetres wide for compact hanging, whilst the collector folds up to store completely flat.

For cleaning hard-to-reach gutters and roof tiles Hoselink also launched its Long-reach Pivot Cleaner with a moveable head, which can be adjusted in a 270-degree radius to suit any task and is

also designed for hooking over gutters. The lightweight aluminium rod extends to 160 centimetres at full length, reducing the need for a ladder, and the water outlet emits a powerful fan spray well suited to a range of outdoor cleaning tasks.

Winter is also the ideal time to give lawns a boost by using Hoselink's Fertiliser Spray Mixer bottle to control exactly how much fertiliser is drawn through the venturi system, adjust the water flow and enjoy a reliable no-burst connection. ## Spring-cleaning with Hoselink

With spring just around the corner, now is the time for your customers to get their hands into their spring gardens with Hoselink Comfort Leather Gloves, offering the perfect fit to protect hands while tackling tough and messy gardening jobs.

Elasticated around the wrist to keep out debris, the gloves are made from supple leather and breathable spandex for a soft, flexible feel designed with comfort in mind.

As the weather warms up, the need to water the garden will become more frequent. Making watering particularly easy this spring is Hoselink's new Shower Wand and Long-reach Shower Wand sprayers. Ideal for saturating hanging and potted plants,

the wands deliver a soft spray, that is gentle on delicate flowers and seedlings, complete with an on/off flow control lever to manage water strength.

The start of spring is also a good time to deep clean chicken coops, dog kennels and other animal pens. Hoselink's range of cleaning accessories includes the newly designed Super Jet Washer. Producing a fine, hard spray, the Super Jet Washer will rinse away dirt, mud and stains with ease. Its two interchangeable nozzles also deliver a strong pinpoint blast or wide fan spray, perfect for a range of jobs.

## Hoselink launches Solar Light range

Watering expert, Hoselink, has recently diversified to launch a brand new range of quality solar lights in one of the company's biggest ever product launches

The range includes a Decorative Round Solar Wall Light, Clear Solar Wall Light, Colour Change Solar Wall Light, Wide-angle Solar Wall Light, Wall-mount Solar Floodlight and Solar Garden Spot Lights, with more to come later this year.

After consistent feedback from customers requesting a quality solar lighting range, the product management team worked tirelessly for more than a year to produce lights that could stand up to

Hoselink's rigorous quality standards, according to the company. Each solar light is waterproof, designed to be used outdoors in all weather conditions with no cables, wiring or power adapter required.

Each light comes integrated with a powerful 1.2V 600mAh rechargeable Ni-MH battery and a built-in intelligent light sensor that illuminates automatically at night and turns off at dawn.

Lights are available in a choice of single or multipack sets and each comes with the required hardware for easy installation.
